BUSINESS SERVICES UPDATE 28.

Mr. Hall reviewed with the Trustees copies of the presentation slides of the School Services of California conference regarding the budget that he attended. He reviewed the major budget changes which include the 2% STRS shift proposal withdrawn. This cost will be paid by State General Fund dollars. Also, the mental health shift to education was withdrawn, and the state will be providing more funding to county mental health agencies. There will also be slightly more deficit reduction, \$78 million more bought 0.22% more deficit reduction. There will be a small payment for some prior-year mandates - a total of \$60.6 million for K-12 education. There will not be any additional funding for equalization aid or declining enrollment. Mr. Hall also reviewed the impact of Proposition 98 for 2004-05 and 2005-06.

Mr. Hall reported on the article in the <u>San Diego Union Tribune</u> stated that schools get \$10,000 per student. The slide that Mr. Hall shared was the Governor's breakdown of the \$10,000 funding per pupil. The breakdown included

monies from Prop 98 funding per ADA, federal funds, other local revenues (other than property taxes), local debt service, lottery revenues, STRS payments made by the state and other revenues. The increase of COLA and deficit reduction for an <u>average</u> high school district was shown to be \$312 per ADA.

Mr. Hall stated that in the last 35 years, California has fallen from the top to near the bottom of the states when it comes to funding per pupil. The passage of Prop 98 has not stopped that slide, and full funding for the "deal" in 2004-05 would have helped close the gap by \$268 per student.

The last slide was a 2005-05 budget revision checklist. It was a list of how districts should now revise their budgets based on the adopted State Budget within 45 days.

Mr. Hall reported that at the next board meeting, there will be a couple of contracts and agreements with the district for the Foundation regarding the expenses for the field at La Costa Canyon.

Mrs. Cooper-Francisco reported that the second session of summer school has started. The enrollment for first session of summer school was 1,800, and the second session has 1,600. Staff is starting to prepare curriculum for the new school year.

Dr. Lynch reported that this is the first reading of these policies. Changes on these policies reflect state law changes and, of course, corrections due to changes in our transportation coop.

There are a few areas in the policies that will be reviewed and changed prior to these being returned for adoption.

APPROVAL TO REDUCE RETENTION

### **EXECUTIVE SUMMARY**

T.B. Penick & Sons, Inc., bid package #3 (landscape, irrigation & field equipment) has completed over 50% of the contract for work at Canyon Crest Academy. The District is required to withhold 10% from payments made to the contractor for work performed. The contract allows the contractor to request that this retention be reduced to 5% upon satisfactory completion of 50% of the contract; however, Board approval is required. The Construction Manager, Architect, and district staff is satisfied with the contractors' work and is recommending that this request be granted.

#### **RECOMMENDATION:**

It is recommended that the Board authorize the administration to reduce the retention being withheld from payments to T. B. Penick & Sons, Inc. for the Canyon Crest Academy project, from 10% to 5%, as authorized under the terms and conditions of the contract.

SAN DIEGUITO HIGH SCHOOL ACADEMY

**MODERNIZATION** 

#### **EXECUTIVE SUMMARY**

Since the approval of change order #4 to the San Dieguito Academy Modernization project, the construction manager, Douglas Barnhart, Inc., and the District, have come to a resolution with T.B. Penick and Sons. Change order #5 is in the amount of \$234,428.00. Of this amount, \$80,000.00 was the settlement of a claim filed by T.B. Penick and Sons in excess of \$150,000.00, for issues pertaining to addendum issued by the architect in conflict with the civil plans. The addendum affected areas pertaining to the retaining walls at the fire lane, flatwork at Buildings 40, 60 and 110, and the pedestrian ramps at the administration building.

Included in change order #5 is \$52,232 worth of new flatwork at various areas throughout the campus given at the direction of the District, as well as areas where the contract allowed for the patch back of flatwork only, which was not acceptable.

Additionally, \$36,136 is for the reduction and transfer of scope from Sierra Pacific West in change order #4 to T.B. Penick to maintain the schedule.

The modernization budget at the time of bid was \$8.37 million. The final project cost, including change order #5, as well as other site and soft costs, amounts to \$9.64 million.

AGENDA ITEM: \_\_\_<sup>18</sup>

Staff recommends funding the increase in the modernization budget from Capital Facilities Fund 25-19.

#### **RECOMMENDATION:**

It is recommended that the Board approve a change order to the following bid packages for the San Dieguito High School Modernization project, and authorize Eric J. Hall or Simonetta March to execute the change orders:

a) Bid Package #1B (Concrete, CMU, Misc. Metal) – T.B. Penick & Sons, Inc., increasing the contract time by <u>355</u> calendar days and the contract amount by \$234,428.00.

#### TRANSPORTATION

No student shall be required to be transported for any reason without the written permission of the student's parent/guardian, except in emergency situations involving illness or injury to the student.

#### Means of Transportation

To provide transportation services, the Governing Board may purchase, rent or lease vehicles; contract with a common carrier or municipally owned transit system; contract with responsible private parties including the parent/guardian of the student being transported; and/or contract with the County Superintendent of Schools.

In contracting for transportation services, the district shall comply with all applicable laws related to bids and contracts.

In lieu of providing transportation in whole or in part, the district may pay the parents/guardians of special education students who have been identified in individual educational programs (IEP) as needing transportation, either their actual and necessary expenses in transporting the student or the cost of the student's food and lodging at a place convenient to the school. In either case, the amount of the payment shall not exceed the cost that would be incurred by the district to provide for the transportation of the student to and from school.

#### TRANSPORTATION ROUTES AND SCHEDULES

Junior high Middle school students living beyond two and three quarter miles of the junior high middle schools will be eligible for school bus transportation to or from school. Home to school transportation to district senior high schools will be limited to special ed students whose I.E.P. calls for transportation. An exception may be made for a "shuttle service" to link a high school with another high school or a public bus route that does not service the school site serving the area.

Bus stops will be so spaced that those students qualified to ride school buses will walk no farther from their home to the bus stops than the limits provided above for those students who do not qualify for bus transportation. Exceptions may be permitted in either case to ensure the safety of district students.

Students qualified to ride the school bus will not be required to walk more than two and three quarter miles to their bus stop.

Bus stops shall be scheduled, so far as possible, to avoid having students cross major highways and thoroughfares except at traffic signals or marked crosswalks.

Buses will be provided for co-curricular activities which are interscholastic and are a part of the educational program, subject to the availability of equipment. Students will be charged to help offset the costs of providing the service.

Buses may be used by Board approved campus organizations for extra curricular or co-curricular activities which are not interscholastic or which cannot be construed as part of the educational program. The costs of the use of the transportation for such activities will be paid for by the users.

The superintendent is authorized to develop school bus routes and schedules to implement the Board's policy and to approve the use of district transportation for out of county trips.

Bus schedules will be coordinated among the school districts of the Cooperative in order to transport students as cost effectively as possible.

#### TRANSPORTATION FOR STUDENTS WITH DISABILITIES OR HANDICAPS

IEP teams or Section 504 committees shall authorize appropriate special transportation to and from school for students who have:

- An orthopedic or other physical disability or handicap that significantly impairs mobility.
- 2. A severe sensory impairment, such as full or partial blindness or deafness, which puts their safety and well-being at risk.
- 3. A significant delay in social, emotional or cognitive development, as documented by appropriate assessment data, which puts their safety and well-being at risk.

Students eligible for special transportation for one of the above reasons may receive such transportation to and/or from a child care provider located within the district.

The district shall provide special transportation to and from alternative sites or clinics where the student is scheduled to receive a related service included in the student's IEP.

Special education students who do not meet any of the above criteria may use regular home-to-school transportation. #### TRANSPORTATION SAFETY AND EMERGENCIES

#### Transportation Safety Plan

The Superintendent or designee shall develop a transportation safety plan to address student safety, which includes all of the following:

- Procedures for determining if students in grades 7 through 12 require escort to cross a private road or highway at a bus stop pursuant to Vehicle Code 22112
- 2. Procedures for all students in grades 7 through 12 to follow as they board and exit the bus at their bus stops.
- 3. Procedures for boarding and exiting a school bus at a school or other trip destination.

A copy of the plan shall be kept at each school site and made available upon request to the California Highway Patrol.

#### Safe Bus Operations

School buses and school student activity buses shall also not be operated whenever the number of passengers exceeds bus-seating capacity, except when necessary in emergency situations, which require that students be moved immediately to ensure their safety.

School bus drivers have the discretionary authority to discontinue home-to-school, or any activity trips, if conditions become unsafe when visibility is reduced to 200-feet or less. If, in the opinion of the bus driver, conditions are so hazardous that the safe operation of the bus is not possible, the driver shall pull off the roadway and, if possible, onto the shoulder of the road.

Driver instructors will be responsible to help driver's recognize the 200-foot limit.

If the driver is unsure that there is adequate visibility to drive the bus safely, the driver will:

- 1. Reduce speed
- 2. Increase following distance
- 3. Call dispatch to inform them of the concern and to notify the school that the route or trip will be delayed.

If a driver must stop the bus, the driver will look for a location approximately ten feet off of the roadway. With headlights off and hazard lights on, the driver shall erect the warning reflectors and place them on the roadway in the appropriate fashion for added visibility. The driver will turn off the hazard lights and the clearance lights. Lights are turned off to prevent other drivers from being attracted and following those lights.

When the driver has notified dispatch of the poor visibility conditions, dispatch will send, if available, an instructor or supervisor to further assist the driver and other drivers at the location of the poor visibility.

In poor visibility conditions, the students shall remain on the bus under the direction and supervision of the driver.

When a school bus or student activity bus is equipped with a passenger restraint system, all passengers shall be required to be properly restrained by that system while the bus is in motion.

Bus drivers shall be informed of procedures to be followed to reasonably ensure that all passengers are so restrained.

The Superintendent or designee may place a notice at bus entrances that warns against unauthorized entry. The driver or another school official may order any person to disembark if that person enters a bus without prior authorization and has intent to commit a crime.

Each school bus shall be equipped with at least one fire extinguisher located in the driver's compartment, which meets the standards specified in law.

The Superintendent or designee shall review all investigations of bus incidents and accidents to develop preventative measures.

#### Student Instruction

All students who are transported in a school bus or student activity bus shall receive instruction in school bus emergency procedures and passenger safety which shall include the following:

1. Each school year, the Superintendent or designee shall provide appropriate instruction in safe riding practices and emergency evacuation drills. Each student who receives home-to-school transportation in a school bus shall be required to receive this instruction. (5 CCR 14102)

2. At least once each year, all students in grades 7 through 12 who receive home-to-school transportation shall receive safety instruction, which includes, but is not limited to:

- a. Proper loading and unloading procedures, including escorting by the driver
- b. How to safely cross the street, highway or private road
- c. The use of passenger restraint systems, including but not limited to the proper fastening and release of the passenger restraint system, acceptable placement of passenger restraint systems on students, times at which the passenger restraint systems should be fastened and released, and acceptable placement of the passenger restraint systems when not in use
- d. Proper passenger conduct
- e. Bus evacuation
- f. Location of emergency equipment.

Practice drills are in the interest of safety for all concerned in the event it becomes necessary to evacuate a bus. A well-planned procedure rather than a disorderly evacuation will reduce panic.

At least one bus evacuation drill shall be conducted each school year at each school site for riders of school buses.

As part of this instruction, students shall evacuate the school bus through emergency exit doors. Instruction also may include responsibilities of passengers seated next to an emergency exit.

Each time the above instruction is given, the following information shall be documented:

- a. District name
- b. School name and location
- c. Date of instruction
- d. Names of supervising adults
- e. Number of students participating

- f. Grade levels of students
- g. Subjects covered in instruction
- h. Amount of time taken for instruction
- i. Bus driver's name
- j. Bus number
- k. Additional remarks

This documentation shall be kept on file at the district office or the school for one year and shall be available for inspection by the California Highway Patrol.

- 3. Before departing on a school activity trip, all students riding on a school bus or student activity bus shall receive safety instruction, which includes, but is not limited to:
  - a. Location of emergency exits
  - b. Location and use of emergency equipment

This instruction also may include responsibilities of passengers seated next to an emergency exit.

#### SCHOOL BUS CONDUCT/STUDENT SAFETY

The San Dieguito Union High School District provides transportation for its students in accordance with the provisions of Education Code 16801. In order to provide this service with maximum safety for all pupils and to insure their bus riding privileges, the following standards for bus conduct are established. Failure to meet these standards may result in loss of riding privileges.

- 1. The bus driver is responsible for the safety and well-being of all passengers. The drivers directions must be followed at all times.
- 2. Students are to respect the property at bus stops and conduct themselves in an orderly manner while waiting for the bus and while returning home from the bus stop.
- 3. Students should not arrive at their bus stops more than five minutes before the bus arrives.
- 4. Students are required to use the same bus stop each day, and to return to the same stop. Elementary students are not permitted to ride any other bus to a friend's house, music lesson, scout meeting, etc., without written parent permission. This privilege shall be granted on a space available basis only.
- 5. The person in charge of loading the bus will determine the order of pupil entrance.
- 6. Bus windows are to be operated by the driver only, and are not to be lowered below the second notch (on most bus models this is approximately 6 inches.) Bus windows are not to be lowered more than half way. All body parts are to remain inside the bus. No littering/throwing items from bus windows.
- 7. Unnecessary noise in the bus, such as loud talking, shouting, singing, and other rowdyism may distract the attention of the driver, and therefore is prohibited for the safety of all passengers.
- 8. Transporting animals on the school bus is contrary to State Law and not permitted, except for service animals.

3543.1/AR-1 5131.2/AR-1

- 10. Any item considered dangerous to the health, safety or welfare of riders may be prohibited by the bus driver.

  Automobiles must stop when a school bus is flashing its red lights. Pupils crossing the street must do so in front of the bus, as directed by the driver.

Failure to comply with school bus regulations or acting in any manner that creates an unsafe condition in or around the school bus will result in students' bus riding privilege being suspended or denied in accordance with Section 14263 of Title V of the California Administrative Code.

Noncompliance with bus riders rules will result in the following:

Incidents of misconduct on the bus shall be reported to the building principal for appropriate action. Such action may include, but is not limited to, contact with parents to discuss possible solutions, denial of bus riding privileges or suspension from school.

It shall be the principal's responsibility to communicate, with all parties concerned, the results of his action regarding each referral from a bus driver.

No later than the second referral, the parents will be notified that there is a problem and it is possible that their child's school bus riding privileges may be terminated if the problem is not resolved. On receipt of the third referral, school bus riding privileges shall be denied or suspended for a period of time as may be prescribed by the principal.

Disciplinary action for students will be based on behavior that disrupts the safety on the bus, or compromises the authority of the bus driver. Discipline will be implemented in the following manner:

- 1. First offense Student counseled, parents notified
- 2. Second offense Three (3) day suspension
- 3. Third offense Two (2) week suspension

SAN DIEGUITO UNION HIGH SCHOOL DISTRICT

Administrative Regulation Issued: March 3, 1983 Administrative Regulation Issued: January 16, 1997 Administrative Regulation DRAFT: June 8, 2005

- 4. Fourth offense Suspension for entire school year
- 5. Exception Threat of bodily harm or violence or severe unsafe behavior is cause for immediate suspension.

The referral form will indicate the type of misconduct, time, place, bus driver, school and other pertinent information concerning the problem. Disposition of the referral form after the principal's action will be the original sent to the parents, the duplicate for the school file, the triplicate returned to the transportation department.
