Evaluation/Supervision

BP 4115

Personnel

The Governing Board believes that regular, comprehensive evaluations designed to hold instructional staff accountable for their performance, are key to improving their teaching skills and raising students' levels of achievement.

Evaluations shall be used to recognize the exemplary skills and accomplishments of staff and to identify areas needing improvement. When areas needing improvement are identified, the Board expects employees to accept responsibility for improving their performance and encourages them to take initiative to request assistance as necessary, including participation in appropriate staff development and/or individualized teacher support and guidance programs.

The Superintendent or designee shall assess the performance of certificated instructional staff as it reasonably relates to the following criteria:

1. Students' progress toward meeting district standards of expected achievement for their grade level in each area of study and, if applicable, towards the state-adopted content standards as measured by state-adopted criterion-referenced assessments
2. The instructional techniques and strategies used by the employee
3. The employee's adherence to curricular objectives
4. The establishment and maintenance of a suitable learning environment within the scope of the employee's responsibilities.

The evaluation of certificated employee performance shall not include the use of publishers' norms established by standardized tests.

Non-instructional certificated employees shall be evaluated on their performance in fulfilling their defined job responsibilities.

The Superintendent or designee shall ensure that evaluation ratings have uniform meaning and are uniformly applied throughout the district.
