## **World Language Instruction**

BP 6142.2

### **Instruction**

In order to prepare students for global citizenship and to broaden their intercultural understanding and career opportunities, the Governing Board shall provide students with opportunities to develop linguistic proficiency and cultural literacy in one or more world languages in addition to English.

The Superintendent or designee shall recommend world languages to be taught in the district's educational program based on student interest, community needs, and available resources. He/she shall also consider providing English learners the opportunity to study their heritage language, when such a course is available, in order to continue developing skills in that language. American Sign Language courses shall be open to all students regardless of hearing status.

The district shall offer a sequential curriculum aligned with the state content standards, state curriculum framework, and, as applicable, California university admission requirements for languages other than English.

Instruction in world languages shall be offered to secondary school students beginning no later than grade 7 and shall be designed to develop students' skills in understanding, speaking, reading, and writing the language.

Students shall obtain credit toward high school graduation requirements for completion of a one-year course in a world language or American Sign Language during grades 9-12.

The district may establish a dual-language immersion program that provides integrated language learning and academic instruction for native speakers of English and native speakers of another language, with the goals of high academic achievement, first and second language proficiency, and cross-cultural understanding.

The Board shall ensure that students have access to high-quality instructional materials in world languages. In accordance with Board policy, teachers shall be encouraged to identify and use supplemental resources, such as literature, technology, newspapers and other media, dictionaries, and volunteers from the community to enhance the world language instructional program.

The Superintendent or designee shall provide professional development as necessary to ensure that teachers of world languages have the knowledge and skills they need to implement an effective instructional program that helps students attain academic standards.

The Superintendent or designee shall provide periodic reports to the Board regarding the effectiveness of the district's world language program which may include, but not be limited to, a description of the district's curriculum and the extent to which it is aligned with the state's content standards and curriculum framework, student achievement of district standards for world language instruction, and student participation rates in each language course. Program evaluation shall be

used to identify needed improvements and may be considered in determining the world languages to be taught in the district.
